Subject: FW: Coronavirus Relief Fund - Wilson County

Hi Yvonne:

Here is the response from TDEM for the answer about exchanging the faucets and toilets. And just a little bit more that you could add, the City of La Vernia did not have this public health enhancement budgeted because we did not have a public health emergency (pandemic) in the environment when the City was planning and budgeting for this fiscal year.

Just a thought. Let me know how I can help.

Thanks,
Michele

Ms. Mora,

Thank you for your inquiry!

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

If you can demonstrate that such costs were necessary then they would likely fall under public health expenses.

Subject: Eligible Expense

Good Morning:

I have a question from a City Administrator in one of the county's cities. Would replacing the city park's faucets and toilets with the automatic, contactless faucets and toilets be a qualifying expense? The city only has one park, but it is frequented often by the public.

Your assistance in this matter is greatly appreciated.

Respectfully,
Michele

2. As the user enters the beam's effective range (22" to 42") the beam is reflected into the OPTIMA Plus Scanner Window and transformed into a low voltage electrical circuit. Once activated, the Output Circuit continues in a "hold" mode for as long as the user remains within the effective range of the Sensor.

3. When the user steps away from the OPTIMA Plus Sensor, the circuit waits 3 seconds (to prevent false flushing) then initiates an electrical signal that operates the Solenoid. This initiates the flushing cycle to flush the fixture. The Circuit then automatically resets and is ready for the next user.
