Residential Accessory Buildings

What is an Accessory Building? *Accessory use or building* means a use or building on the same lot with, subordinate to and detached from the main building and used for purposes customarily incidental to the primary use of the premises.

What are the requirements for an Accessory Building?

Sec. 38-410. Accessory structures.

- No accessory structure shall be permitted without a primary use or structure.
- No accessory building shall be constructed or placed upon a lot until construction of the principal building has commenced. No accessory building shall be used or occupied until the principal building is completed and is being used or occupied except for barns, garages or other storage structures being utilized for the storage of materials and equipment associated with agricultural use of a property in the (R-A) Single-family Agricultural district.
- The minimum separation between a main structure and a detached accessory structure other than a carport, patio cover, pergola, or gazebo (structures with a minimum of three open walls) shall be ten feet.
- No accessory structures shall be located forward of the principal building on the lot.
- Accessory buildings may be located in the required side or rear yard provided they are no closer than five feet to any property line and cannot encroach on any easement on the property.
- Portable accessory buildings less than 120 square feet which are not placed on a permanent foundation shall be allowed in all residential districts with a maximum number of two per lot.
- Mechanical equipment such as air conditioning compressors, swimming pool pumps and filters, and similar devices may be installed in the side yard at the maximum height of 60 inches above the ground level of the graded lot (except in areas of special flood hazard which requires units one foot above the base flood elevation). Mechanical equipment is not allowable under or opposite window, doors, or other openings of adjacent residences.

When is a permit needed? A permit and plan review is required for all Accessory Buildings. A permit fee is due at submission of application.

Submittal documents: Fill out a Residential permit application and submit (2) site plans which include the following: (You may use a copy of a survey of your lot)

- _____ Location of main building on lot and all other structures on property.
- _____ All Easements on property
- _____ Location of proposed accessory structure on lot.
- _____ Distance from accessory structure to main building and other structures on property.
- _____ Distance from accessory structure to side and rear lot lines.
- _____ All streets and alleys.
- _____ Foundation plans and/or means of support. (All portable buildings must be tied down regardless of size.)
- _____ Electrical and plumbing plans, if applicable.
- _____ Roof details (if not a prefabricated storage building)

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All permits require final inspection.

A Certificate of Occupancy must be issued before any building is occupied

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
