What do I need to install a Deck? - Because they are not covered, decks are not considered additions to the footprint of the house nor do they have to meet setback requirements. Any deck 30 inches off the ground requires a permit. Submit a residential permit application and a drawing showing the house and where the deck is to be constructed. Include the materials to be used and a description of how the deck will be anchored to the ground. Decks may not be placed in an existing easement.

<u>Do I need a permit for a Concrete Patio?</u> Concrete patios require a permit. Submit a site plan showing location of all buildings and proposed patio. Patios may not be place in an existing easement.

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All permits require final inspection.  **A Certificate of Occupancy must be issued before any building is occupied**  I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
